

BDF Naturlagen®: Hydrolyzed Marine Collagen

BDF NATURLAGEN® is our new marine, **hydrolyzed collagen** powder made from the skins of **wild-caught fish** such as cod, haddock and pollock. Hydrolyzed collagen consists of **low-molecular weight peptides**. These small collagen peptides are made using enzymatic collagen hydrolysis.

Why Choose BDF NATURLAGEN® Over the Rest?

BDF blind organoleptic test

When Quality and Care Matter Most – Choose BDF Water-like collagen. Outstanding results.

- + **Not at risk** of exposure to **antibiotics or hormones**.
- + **Water-like** product
- + **Lower carbon footprint** than other animal collagens.
- + Very good **solubility**.
- + **Higher % of essential amino acids**
- + Low dosage recommendation - **5g per day** - with positive benefits on skin demonstrated by **clinical study**.
- + Molecular Weight: ~ **3000 Da**.
- + **MSC, FSSC, Halal and Kosher** certifications.
- + Made in **Europe**
