

〈 Product name 〉 OSK BLACK OOLONG TEA52P

〈 Character 〉

- This product is tea bag style black oolong tea. The name of black oolong tea is a common name for black and glossy oolong tea that has been fully fermented and roasted among the oolong tea produced in the Minbei district of Fujian Province, China. Compared to general oolong tea, it is aged for a long time (strong fermentation) and slowly roasted for a long time to finish. This product uses black oolong tea from the Minbei district of Fujian province, and has a simple and refreshing taste.

Ingredients

Tea (semi-fermented, Minbei district of Fujian Province, China)

Caution

- ◇ Please be careful when you use hot water.
- ◇ This product is produced at a factory that also processes buckwheat.
- ◇ If it does not suit your constitution, please refrain from drinking.
- ◇ There sometimes a spot on the seal part of the tea bag which is triggered by sandwiching ingredient when tea bag processing so it is not a foreign material.
- ◇ Please keep away from hot places such as near cooking equipment.

How to drink

● For hot

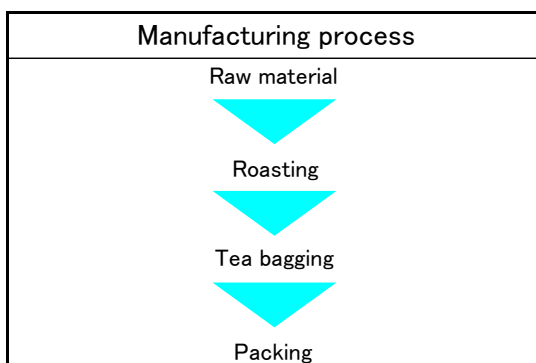

Please put 1 tea bag in 500ml – 1 liter of boiled water and stop heating. When the strength reached to your preference, please remove the tea bag and enjoy.

For cooling down, please leave it in room temperature for a while and remove to a container and store in a refrigerator and drink.

● For cold

Please put 1 tea bag in 500ml of cold water and store in a refrigerator for a night so you can enjoy moderate taste of black oolong tea.

Compared with using hot water, the water color would be more lighter so please shake few times and when the strength has reached to your preference, please remove the tea bag and drink.
